“ I appreciate Lois' kids providing this opportunity to share a memory. I've always called Lois my, "Momma #2". Not only did she look like she could be my mom's sister, but they were life long friends as well. Lois treated me like a son and was always there with advice, a kind word or even chastising me when she thought it was necessary. There are too many great memories I have of her, but my all time favorite was when she was there for me when my mom passed away. You are and always will be sorely missed, Momma #2.

“ Lois was perfect for my dad! She took very good care of him through good times and bad and she was my confidant. I will truly miss her and cherish our memories of adventures together.
