“ Louise, I was saddened to hear about Stuart. It's been many years since we'd been in touch but he and I worked together for a few years at UA and he was the one who got me into doing some HTML coding and Photoshop for a community-based project about local Hispanic families. None of which I would have known about had it not been for Stuart. Treasure your memories, and take care.

“ I worked for and with Stuart for many years. He was an intelligent and creative person. I think he got to enjoy retirement, and he loved and cared for his family.

“ I had the pleasure of working with Stuart for many years starting in 2000. He inspired and encouraged creative use of technology for teaching and learning, a love of the histories of everyday people and places. With him I shared a love for Randy Newman songs, all things Studs Terkel, stories about families. Heartfelt sympathies. He is missed.

“ I had the honor and privilege of working with Stuart at the UA from 2004 until his retirement. Not only did I admire his meticulous attention to detail in everything he did, especially the TOPE (Through our Parent's Eyes) project, he was simply one of best human beings I have ever known. I thoroughly enjoyed his wit and dry sense of humor as well as appreciated his love for good jazz, fine wine, and great beer. I remember often knocking on his office door and being greeted by a great jazz song upon entering. I will never forget him and will forever call him my friend. My life is richer having known him and the world is a better place because he was in it. My sincere condolences and heartfelt sympathies for your loss.
