“ He too was my spiritual Daddy. I loved him so much and sister Jones so much. I would even dream about him. I was so sad I'd wake up crying knowing that I was going to lose him as my pastor. I would my heart ached. I am I praise God and I'm so grateful that I had him as my pastor and my spiritual Daddy back in the 80s my late 80s in the 90s through 2000. I'm so grateful I learned I thought I was fed the richest of the rich of true Christianity and how he allowed the Holy Spirit truly be Lord of our services he was extremely extremely sensitive to the Holy Spirit. Unfortunately a lot of your pastors nowadays don't even want him to be a part of the church and they don't know how to allow the Holy Spirit to have his way. I'm so grateful that I had the privilege to grow under that holy man of gods umbrella tutelage. Sincerely yours Minister sohaila Armstrong. I'm so grateful I can't tell you how many times I think about until the Lord how grateful I was to be able to be in that church with a man of God such as pastor Virgil Jones and sister Greta and the great great ministers he had is so associate pastors I should say I'm so grateful the teachings he he brought forth and his associates was so rich and strong and pure from the holy spirit in the throne room of God itself. I love that man he was so good to me and so was Greta
